Imagine the impact of a full cinematic experience right in your own home! Home Theater Seating In A Box™ combines unparalleled comfort, sophisticated design and all the features you need to help create the ultimate home theater.

This modular system is available in straight or curved configurations. You can customize the configuration to fit your family size and living space with as many seats across as you need.

Features...

Easy to clean removable cup holder on every arm (color options available)

Wall hugger design that needs only 6 inches of wall clearance

Also available...

Wired or Wireless Bass Shaker System that creates the sensation of being part of the movie, providing the ultimate in Home Theater experience.

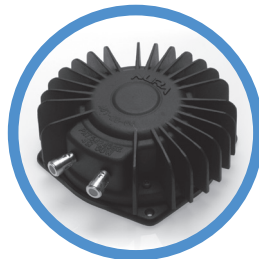

RF (radio frequency 2.4 GHZ) transmitter plugs into home theater amplifier that will supply signal to all bass shaker units within 200 ft radius

50 watt (4 ohms) amplifier built into seat of chair

RF receiver built into seat of chair

Bass shaker mounted within the seat back has a nominal impedance of 4 ohms

*Wired system includes this part only

All you need to get started...

- Plug transmitter into home theater amplifier
- Plug amplifier into the power source of your seating unit
- Adjust individual intensity to your comfort level
- No wires to connect between seats and home theater system
